

Hi, I'm Terry!

Blue Diamond Dairy
The Fredricks Family

Meet
Terry!

Meet the family!

From left to right:

**Glenn, Daphne (6), Dan
(12), Sadie and Monika (10)**

Both Glen & Sadie grew up on dairy farms but neither wanted to go back to their home farm. Instead, they bought their own farm after getting married and now raise over 200 cows & heifers.

Glen & Sadie bought their farm in 2005.

About the Farm

Terry

Name: **Terry**
Birthdate: October 7, 2019
Sire: Fly High
Dam: Tessa
Height: 34 inches
Weight: 90 pounds
Breed: Holstein

Meet Your Calf

1

Within a few hours after birth, Terry drinks **colostrum** and takes her first few steps in life.

2

Naval Dip

Terry's **naval** is dipped with iodine to protect her from getting an infection.

3

Terry also always has fresh water to drink.

Automatic Waterer

Her First Moments

Group Housing

Terry will live with her herdmates in group housing for the next few months.

Terry drinks from a bottle. The milk bottle is placed into a holder with a hole the nipple slides through to drink from.

The Fredricks freshly bed Terry's bed with straw weekly which includes a layer of shavings underneath.

Animal Care

Terry

Terry loves being happy and healthy!

Soon, Terry will get an ear tag like her mom for identification. This is just like human's getting their ear's pierced.

Blue Diamond Dairy disbuds horns using lidocaine (a pain reliever) to prevent horn growth for the safety of the other animals and humans.

Animal Care

Hi, I'm Tessa. I'm Terry's Mother!

Name: Tessa

Age: 7 years old

Height: 5 feet, 8 inches

Weight: 1,550 pounds

Tessa produces 80 pounds or 10 gallons of milk per day

Tessa's job on the farm is to produce high-quality milk for the Fredrick's family to sell so it can be made into fluid milk and other dairy products for you to consume.

What are your favorite dairy products?

Meet Terry's Mom

This is the Tie Stall Barn where Tessa and her herdmates live in the winter.

Cows have an unlimited supply of water 24/7. Indoors, they have a water bowl that fills up at a touch of a nose!

Tessa's sleeping area is called a **bedded pack**. The bedded pack is covered with straw for comfort and warmth in the winter.

This is the pasture where Tessa and her herdmates live during the warm months.

Outside, Tessa has access to water 24/7 from huge water troughs that all the cows share.

Throughout the summer, Glenn moves the cows from pasture to pasture (called **rotational grazing**), so the cows always have fresh grass to eat.

Cow Comfort - Outside

Terry

Blue Diamond Dairy
The Fredricks Family

97% of dairy farms across the country are family owned and operated just like the Blue Diamond Dairy. Dairy Farming is a family affair, with a lot of love, hard work and perseverance put in to take good care of their cows. Terry is well loved by them all!
