

Lesson 1: Animal Health

Career Spotlight: Dairy Farmer

Description

Dairy farming is not only a career but also a way of life to over 40,000 men and women in the United States.

Dairy farmers have a very important job to do. We depend on those animals to produce milk to keep us healthy.

Common Responsibilities

- Providing their animals with a place to live
- Keeping their animals healthy
- Providing their animals with a nutritious diet
- Providing safe milk and dairy products for us

Education/Training Requirements

High School Diploma with Work Experience on a Dairy Farm Business (minimum of 5 years) and Post-Secondary Training in Business (strongly recommended)
